EDUCATION

Bachelor of Science in Computer Science

Aug 2022 - Aug 2024

Mountain Top University

- GPA: 4.5/5.0.
- Relevant Courses: Data Structures and Algorithm, Object-Oriented Programming, Human-Computer Interaction, Systems Programming.

SKILLS

Languages Javascript (ES6), Python.

Tools/Frameworks ReactJS, NextJS, Tailwind CSS, TypeScript, Redux Toolkit, RTK Query, React Router, ExpressJS, Flask, Jupyter Notebook, Pandas, Numpy, Streamlit, Gradio.

Databases MongoDB, PostgreSQL.

WORK EXPERIENCE

Frontend Developer

May 2025 - Present

Immibuddy (Canada)

- Collaborated closely with backend developers to integrate APIs for core features, including Messaging, Community Management, and dynamic content feeds.
- Developed responsive front-ends for all platform sections using React and Tailwind CSS, ensuring a seamless user experience across devices.
- Managed all application state and data fetching using Redux Toolkit Query (RTK Query), optimizing performance for real-time data within messaging and feeds interfaces.

Frontend Developer Intern

Nov 2024 - Sept 2025

LexTech Ecosystem Limited (Lagos, Nigeria)

- Built responsive React and Tailwind UI components based on LexTech's official website and design system.
- Collaborated to develop clean form flows for e-Affidavit, Multi-Door Court, and NIC solutions.
- Integrated frontend with backend APIs to support seamless legal-tech workflows.

Frontend Developer Intern

March 2023 - Sept 2023

The Content Place (Lagos, Nigeria)

- Spearheaded the successful launch of a new company website, applying full-stack development expertise (HTML, CSS, JavaScript, Python Flask), while collaborating with a supervisor to ensure project delivery.
- Optimized and improved the mobile responsiveness of the company's React e-commerce site for selling artworks, thereby enhancing the overall user experience and performance.

PROJECTS

FullStack Ecommerce Web Application ([Link Here](#))

Aug 2025

Full-stack e-commerce app built with Next.js, TypeScript, and Prisma, featuring user authentication, cart management, and order processing with PostgreSQL database integration.

Chat Application ([Link Here](#))

Oct 2025

Real-time chat app built with Next.js, Express, and Socket.io. Features authentication, messaging.

HACKATHONS

1st Place Winner: Frontend Development for "AgriCast,"

Aug 2025

- Secured victory for Lagos state with an innovative, user-centric digital farming assistance system in an 11-state NYSC hackathon. [View the winning post](#). [View Github Repository Link](#).
